

Spa Maintenance

Start Up

- Add 2oz. of Stain & Scale Control while spa is filling
- Place 3 Bromine Tablets in Brominator

After 24 Hours

- Rinse filter with garden hose
- Check and adjust PH between 7.4-7.6
- Add Bioguard Spa Shock at a rate of 1oz per 300 Gallons of water

Once a week

- Test Ph, Alkalinity, and Bromine
- Add 1-2 oz. of Stain & Scale Control
- Add Bioguard Spa Shock at a rate of 1oz per 300 Gallons of water

Every 4 months

- Drain and Refill your spa
- Replace MicroClean filter

As Needed

- If water looks hazy and test results are all correct add an additional dose of Spa Shock and/ or bring a water sample to Tredway Pools for water analysis
